

Ebaad Ali

Bad Name, Better Quality

Why Do I Have A Website?

Honestly, I prefer back-end coding to web-development but I enjoy working with both. This entire website was coded from scratch (mostly) and was made as a creative way for me to project myself to anyone in a professional, but personal, manner. My goal is to find a working environment where I can utilize my skills to the best of the companies benefits while also learning and improving in the process. I've been working since 16, but have not yet had the chance to use my skills effectively.

What makes me think I'm Qualified?

I've been coding for a decent amount of time now.

(insert languages icons here)

With these tools I have:

- Developed TCP/UDP chatting program in C/C++
- Gained a thorough understanding of software design, selection, and deployment techniques and methodologies
- Coded multiple search algorithms and data structures
- Become proficient in:

Visual Studio coding in: **C# / C++ / SQL / ASP.NET**

Eclipse for **Java**

Microsoft Office

Knowledgeable with the Command Line interface and it's tools such as VIM which I have used to perform network management tasks and code in **C / C++ / Java / mySQL**

- Conceptualized and manipulated databases enough to successfully create multiple web-apps to deal with user-server communication.

Other Skills I Bring To The Table

- Creative and disciplined with a strong sense of responsibility, delivery, and schedule commitment
- Excellent verbal and written communication skills
- Capable of quickly assimilating to concepts in professional and social environments
- Self-directed to keeping an open-mind and doing what's best for the task to get it done in time.
- Ability to analyze situations and problems and present a clear and concise solution demonstrating my diplomacy and critical thinking skills
- Ability to work under pressure and stay focused with frequent interruptions and prioritize multiple deadlines
- High level of interpersonal skills to work effectively in a diverse team.
- Strong leadership and interpersonal communication skills.
